

# We've Tweaked Our Approach To Spelling!

## What it means for learning at HOME:

**More family friendly** - spellings given over two/three weeks to accommodate hectic family life & allow for greater consolidation of learning.

**More inclusive** - no longer 'stuck' learning an assigned list of words. All children given equal opportunity to challenge and support to create their own list from a given word bank, or (if applicable) even focus on zipper/intervention words.

**More FUN** - children encouraged to investigate spelling patterns; to take ownership of their progress and find interesting ways to learn which they then share with their classmates in school.

## What it means for learning at SCHOOL:

Dedicated spelling lessons to support, guide and challenge.

Dedicated wall-space to 'show off' your home learning!

A progressive spelling journey consolidating phonics and tricky Y2 patterns, through to Y6.
